About Us

GHPC is dedicated to the provision of quality care solutions and services to the physically and health challenged members of our communities. It is our duty to offer superior nursing care, therapy services, and individual and community-based support in the safe, comfortable, and familiar environment that is their home and community.

We seek to alleviate pan and suffering brought about by the symptoms of chronic illness, render exceptional quality home care services, and deliver all-around genuine care that greatly improves the quality of life of our clients as well as their families. This is how we give back to the community and raise awareness to further advance our cause of helping the sick, disabled and elderly.

Our Caregivers

We have a dedicated and highly trained team of professionals and paraprofessionals who are all experts in their field of home health care. They have all gone through extensive background checks and screenings to ensure the absence of any criminal record which may potentially compromise the safety of our patients and their loved ones at home. Our caregivers are constantly looking to improve their skills by learning about the latest and most innovative methods of care provision. They are regularly required to attend seminars and training sessions that will fully equip them with the capabilities of an excellent care provides

Mission Statement

Our goal is to provide the highest quality of nursing and therapy services to our clients and their families at home. We have an enduring dedication to help the elders and the chronically ill children of our communities live lives that are not dictated by their health conditions. We aim to deliver services that are in conformity with their law and are rendered in accordance at the highest standard of ethics and personal conduct with full intentions of preserving dignity, independence, and happiness.

Services

GHPC promises to deliver a wide range of health care services to you and your family. Our patient-centered care services ensure a comprehensive brand of care delivery that greatly improves the quality of life of those we serve.
